

Mustafe Omar, Web Developer & Designer

I am a UX Designer with Frontend Development skills, creating visually appealing and highly functional interfaces that bridge the gap between design and development for delightful user experiences.

Employment History

Freelancer at Zizartz

November 2022 — December 2022

Spearheaded the design and development of a comprehensive online learning platform for an art school, enabling students to access and engage with educational resources remotely.

Freelancer at Hill Development

January 2023 — April 2023

Collaborated closely with the Hill Development team to conceptualize and implement a modern, responsive design for their real estate website, optimizing it for optimal user engagement and lead generation.

Education

Electrical & Electronics Engineering, Eastern Mediterranean University, Famagusta

September 2014 — February 2019

Masters In Business Management, Istanbul Ticaret University, İstanbul

September 2020

Beginner HTML & CSS, Udemy

May 2022 — June 2022

Advanced HTML & CSS, Udemy

June 2022 — July 2022
